RE: Logistics partnership inquiry

Hi TrackFlow team,

Hope you're doing well! We're Luna Cosmetics, a growing skincare and beauty brand based in Los Angeles. We currently handle our own warehousing and last mile delivery in-house, but we're scaling fast and it's becoming a headache to manage ourselves.

We're looking to outsource both warehousing and last mile delivery for our US operations. We're doing about 5,000 orders a month right now and growing. Could you send over some info on pricing and how onboarding would work?

A few things that matter to us: we ship a lot of glass bottles so careful handling matters, and our customers expect fast delivery (most of our competitors offer 2-3 day shipping). We'd want to know what carriers you work with for the LA area and nearby states.

We don't really need help with returns processing for now, we handle that ourselves with a small team.

Let us know what you need from us to put together a proposal. Thanks so much!

Luna Cosmetics team
